ASSESSMENT

**SEE Mobility** is the only international fair on the Western Balkans for transport technologies and services, to be held biannually.

The fair encompasses following areas: Road, railway and public transport technologies, railway and public transport infrastructure, interior and exterior in road and railway vehicles with accompanying services and tunnel construction.

Our fair offers a unique opportunity for concrete expansion of business activities of your company and the possibility to present your products, services and new technical solutions to a very dynamic market that encompasses 7 countries with over 30 million inhabitants, that await significant revitalization of railway and road infrastructure in the upcoming ten years, the investments in which are predicted to be over 15 billion EUR worth.

So, do not wait. We prepared an extremely affordable offer for the exhibitors in an attractive premises of the Belgrade hotel “**Jugoslavija**”, on the bank of the beautiful blue Danube that has always connected the “**Southeastern Europe**” with the rest of the continent.

## FAIR PROGRAM

### Work hours / stand montage, preparation and dismantling:

15.09.2021: 10:00h – 17:00h

16.09.2021: 10:00h – 16:00h

14.09.2021.: 15:00h – 22:00h  
*stand montage and preparation*

16.09.2021.: 16:30h *stand dismantling*

Entrance for all visitors on the SEE Mobility 2019 fair and all the accompanying events is free of charge.

### Fair Events:

#### 15 September, Wednesday - The first day of the fair:

12:00h – 12:15h Opening ceremony

12:15h – 13:15h Central fair panel: "Railway research, innovations and implementation of new technologies in Southeast Europe region"

#### 16 September, Thursday - The second day of the fair:

10:00h – 16:00h The second day of the fair with afternoon additional activity

#### **Exclusive opportunity - organized visit to the *Dry Port Nelt*:**

If you believe that intermodal transport is inevitable in achieving your long-term goals, you are in the same team with Nelt. You will have the opportunity to get familiar with Nelt's Intermodal terminal and its logistics capabilities during the presentation and a tour of the business complex in Dobanovci.

A cocktail is planned at the end of the tour. <https://www.nelt.com/en/>

The venue: **Nelt Distribution & Logistics Center**, Dobanovci, near Belgrade  
Departure from Hotel Jugoslavija at 16:00h; returning at 19:30h

**17 September, Friday - The third day of the fair**  
**(additional activity):**

**Organized visit to the MIND Park & B2B in the field**

The biggest industry park of railway industry in South East Europe region: <https://mind.rs>

**The venue: MIND Park, Lužnice, near the Kragujevac**

Departure from Belgrade at 08:30h;  
arrival in Belgrade at 17:00h

**Important notice:** A visit to the MIND Park and Dry port Nelt is organized for all sponsors, exhibitors, guests of honor and members of Rail Cluster SEE and Rail Alliance. The organizer has the exclusive right to determine the list of visitors.

After visiting the MIND park and returning from Lužnice to Belgrade (17 September, around 5:00 pm), a bus transfer to Belgrade Airport will be organized.

*The organizer reserves the right to change this program due to unforeseen circumstances.*

### The Birmingham Centre for Railway Research and Education - BCRRE

at the University of Birmingham, UK is the largest university-based centre for railway research and education in Europe, developing world-leading new technologies alongside renowned higher education programmes. In 2018, Rail Alliance was welcomed into BCRRE. Rail Alliance is a specialist division of BCRRE and provides B2B business support and networking for the rail sector. It currently has over 800 members. BCRRE is keen for its cutting-edge research and innovation results to be used in the rail industry. Not only does it develop new technologies but it also has programmes to enable companies to implement these in their business. Contact us to find out about our research and how to adopt new technology into your company.

### British-Serbian Chamber of Commerce

The British-Serbian Chamber of Commerce (BSCC) is established as an English private limited company, the main objectives of which is to encourage and facilitate trade between the two countries. The BSCC operates on a non-profit basis. BSCC activities are mostly organised by its members. The activities include meetings of members, seminars, trade missions to Serbia, joint cooperation with other similar trade organisations, sponsorship opportunities, contacts with experts in various fields, business networking, etc.

#### Mission

To promote and facilitate trade and investment between the United Kingdom and Serbia, and to represent the views of the business communities in both countries.

#### Objectives

- To facilitate trade between the United Kingdom and The Republic of Serbia
- To provide focussed networking opportunities for our members
- To provide relevant and timely information about doing business in the U.K and Serbia
- To notify our members about current and emerging business opportunities
- To encourage and develop the next generation of entrepreneurs

# VANGUARD

sustainable transport solutions

Our mission is to build on our proven track record and accelerate the delivery of clean mobility solutions for transport through the development of hydrogen and battery technologies and associated supporting infrastructure

## BSN - Business Support Network

*Business Support Network* was formed by managers and consultants who have worked for years in different business associations in Serbia, as well as in private sector companies. Their experience makes them some of the most knowledgeable in Serbia's business climate. The Network's mission is to provide complete support to the investors, from the pre-investment analysis and market research, to everyday assistance in conducting their business in Serbia; all this through legal, consultative, marketing, and lobbying and advocacy advice and services.

### Our Services:

- Economic Networking;
- Representing foreign companies and institutions in Serbia;
- Estimating the real costs of doing business in Serbia and investment business plan;
- Market and competition analysis in Serbia and the region;
- HR support (analysis of labor market for specific branches of industry, analysis of wage structure and demographic trends, labor market intermediation, search and selection, applicant management, talent acquisition);
- PR, Marketing, Event Management and Lobbying activities;

## NELT Group

# of Employees: 4.000  
Turnover 2019: 940 Mil. Eur

Logistics and distribution is our core business. After 30 years of development, Nelt Group became a trademark for a successful business system. The intermodal terminal in Dobanovci, not far from Belgrade, is part of our business system. The terminal is connected by rail to all European ports and land terminals. The terminal is located 6 km of the intersection of the highways E-75 and E-70 and 10 km from the Airport Nikola Tesla. It offers regular weekly railway transport of containers to and from the ports of Rijeka and Pireus.

### **MV Automation Systems GmbH**

# of Employees: 16

Turnover 2019: 2 Mil. Eur

We are manufacturer of a wide range of solenoid valves specialized in railway and commercial vehicle applications performing unique features.

- Voltage tolerances up to + /- 30%
- Ambient temperatures from -50°C to +70°C
- Reliable in different media
- Reliable use at media temperatures from -60°C to +180°C
- Coils with maximum moisture resistance and temperature stabilization
- Low watt coils
- Drinking water approval
- Compliant with current railway standards

### **Solenoid valves for railway technology**

Our valves are implemented in all fields of the rail industry. They are especially used in refrigeration and air-conditioning equipment, heating systems, water installations, braking and door locking systems, wheel flange lubrications, and in the air regulation of microphones and compressors. Large temperature and voltage fluctuations and strong vibrations set high requirements to the applied technology.

### **These are fulfilled by default by our valves for railway application:**

- Compliant to recent railway norms ("Shock and Vibration", "Fire Protection", "EMC", etc.)
- Application in diverse media
- Coils with maximum moisture resistance and temperature stabilization

Our solenoid valves run successfully and reliably under the most diverse climatic conditions in the railway technology industry in the United Kingdom, France, Northern Europe, Russia, China and Canada.

### **Services:**

- Solenoid valves for all pressure ranges and media
- Customised valves
- Manifolds and batteries
- Prefabricated subassemblies

### **Certification:**

- Quality management system according to DIN ISO 9001:2015

## Rail Cluster for Southeast Europe

# of Members: 60

RCSEE is a regional platform for networking and cooperation between private corporate sector, national railways, science and technical institutes and education institutions in rolling stock and railway technique sector.

RCSEE seeks to significantly contribute to the implementation of innovation and modernization policy in railway sector on national and regional level in Southeast Europe, with special attention to intensifying the national and international cooperation.

### What are our concrete activities:

- We present a platform for corporate networking and B2B;
- We promote all members and their image;
- We organize special events, conferences, meetings, workshops...
- We positively promote railway sector in public;
- We promote better cooperation and transfer of knowledge between industry and schools;
- We network members with other European railway clusters;
- We offer a number of professional services to members at very Competitive prices;

Become our active member and use the unique regional platform for business networking.

Send us an e-mail with a request to become a member.

**We work , in Your interest, without bureaucracy**
