Since 1994 **ALTPRO** has innovated, developed and produced signalling and safety equipment for railway vehicles and infrastructure. Dedication to the railway safety has made **ALTPRO** a global company with systems installed on 6 continents and more than 50 countries of the world.

Visit us at the fair SEE Mobility 2023 to see why we can be the origin of your safety.

**ALTPRO**  
ISTRAŽIVANJE - RAZVOJ - PROIZVODNJA

Origin of your safety.

**SEE Mobility** is the only international fair on the Western Balkans for transport technologies and services, held biannually.

The fair encompasses following areas: Road, railway and public transport technologies, railway and public transport infrastructure, interior and exterior in road and railway vehicles with accompanying services and tunnel construction.

Our fair offers a unique opportunity for concrete expansion of business activities of your company and the possibility to present your products, services and new technical solutions to a very dynamic market that encompasses 7 countries with over 30 million inhabitants, that await significant revitalization of railway and road infrastructure in the upcoming ten years, the investments in which are predicted to be over 13 billion EUR worth.

So, do not wait. We prepared an extremely affordable offer for the exhibitors in an attractive premises of the Belgrade hotel “**Jugoslavija**”, on the bank of the beautiful blue Danube that has always connected the “**Southeastern Europe**” with the rest of the continent.

## FAIR PROGRAM

### Work hours / stand montage, preparation and dismantling:

30.05.2023: 10:00h – 17:00h

31.05.2023: 10:00h – 16:00h

29.05.2023.: 15:00h – 22:00h

*stand montage and preparation*

31.05.2023.: 16:00h *stand dismantling*

**Entrance for all visitors on the SEE Mobility 2023 fair and all the accompanying events is free of charge.**

### FAIR EVENTS:

#### May 30, Tuesday - The first day of the fair:

**12:00h – 12:20h** Opening ceremony

**12:20h – 12:50h** Central fair panel, Part One: *“Recommendations for the development of railway infrastructure and passenger traffic”*

**12:50h – 13:20h** Central fair panel, Part Two: *“Railways as a basis for the growth of freight transport and logistics industry in the SEE region”*

#### May 31, Wednesday - The second day of the fair:

Afternoon additional activity (after 16:00h)

**Organized visit to the Nelt Distribution & Logistics Center,**  
Dobanovci, near Belgrade.

**Departure from Hotel Jugoslavija at 16.00h; returning at 19.30h.**

#### **ORGANIZED VISIT TO NELT & OPPORTUNITY TO GET FAMILIAR WITH ITS “DRY PORT” CONCEPT:**

If you believe that intermodal transport is inevitable in achieving your long-term goals & sustainable transport solutions, you are in the same team with NELT. You will have opportunity to get familiar with Nelt’s Intermodal terminal in Dobanovci and Kruševac and their logistics capabilities during the presentation and a tour of the business complex in Dobanovci.

A cocktail is planned at the end of the tour.

<https://www.nelt.com/en/>

**June 1, Thursday - The third day of the fair**  
**(additional activity):**

**Organized visit to the MIND Park & B2B in the field**

Kragujevac, Lužnice  
<https://mind.rs>

**Departure from Belgrade at 8.30h.**

(Gathering for departure no later than 8:15h in front of Hotel Jugoslavija)

**Arrival in Belgrade at 17.00h**

**Important notice:** A visit to the MIND Park and Dry port Nelt is organized for all sponsors, exhibitors, guests of honor and members of Rail Cluster SEE. The organizer has the exclusive right to determine the list of visitors.

After visiting the MIND park and returning from Lužnice to Belgrade (June 1, around 17.00h), a bus transfer to Belgrade Airport will be organized.

More detailed program of the fair will be published no later than 7 days prior the start of the fair.

*Rail Cluster for South-East Europe (RCSEE),  
The organizer of the SEE Mobility 2023*

*The organizer reserves the right to change this program due to unforeseen circumstances.*

## FAIR VENUE

Fair SEE Mobility 2023 will be held in the banquet hall and pre-banquet space in the Belgrade hotel “Jugoslavija”, on the bank of Danube river (first floor).

### Hotel “Jugoslavija” Address:

Bulevar Nikole Tesle 3  
11080 Novi Beograd, Serbia

## FREIGHT WAGONS RENTAL

### **SIMPLE WAGON OFFER**

At Cargo Wagon we believe that wagons' hire shall be easy. We operate few types of standard wagons that are identical in terms of operating parameters, equipment, and controls. All our wagons are registered for international operation, equipped with LL break blocks and GPS trackers.

### **HIGH MAINTENANCE STANDARD**

Quality planned maintenance avoid in-service breakdowns and additional repair costs during rent. We perform revision repairs in certified workshops. Prior to hand-over we check every wagon and make it ready for your operation as of the first day.

### **TRACKING WAGON MOVEMENTS**

All our freight wagons are equipped with GPS tracking units. Customers can monitor location, km performance and actual technical data for every leased wagon from their web browser 24/7.

### **SWIFT SPARE PARTS DELIVERY**

Cargo Wagon keeps a permanent stock of wheelsets and other spare parts for all wagons leased to its customers. Most of spare parts are being dispatched within five days from reception of H/H<sup>R</sup> form from the workshop.

Intermodal container terminal (rail-road), organizing intermodal container trains. MBOX Terminal in Niš, Serbia, is a rail-road intermodal terminal located in Popovac, in the new industrial zone of city of Niš. With two offices, in Belgrade and Niš, the company MBOX TERMINALS DOO was established with the aim of operating and developing the only terminal of its kind in the southern part of Serbia. As per the company's intention, Niš terminal will be just the first out of many similar logistics centers in Serbia and in the region.

**MIND Park is an integrated production, technology and logistics hub dedicated to the rail industry, with more than 30 years of industry experience. With engineering capacities, the production of complete carbody parts for rail vehicles, and the paint shop for the whole train/trams, MIND Park is the perfect location to settle down your rail business. With the redundant infrastructure built on a world-class standard – fibre optic, gas, electricity, and roads with high carrying capacity – MIND Park is striving for the next construction phase, which will include the largest logistics centre with a truck and a container terminal, airport and rail connection.**

MoniRail is a new spin-out company from the *Birmingham Centre for Rail Research & Education (BCRRE)*. Its initial focus is on commercialising an in-service train data analytics platform coupled with an inertial measurement unit (IMU) that enables continuous monitoring of track and train. The IMU can be used to collect data to monitor track geometry, ride comfort, and train condition and performance. The data analytics software platform converts data from the IMU into actionable condition information that predicts failures and allows for preventive maintenance by having a better understanding of the evolving condition of the assets.

## NELT Co d.o.o.

*GOLDEN SPONSOR*

# of Employees: 2.200

Logistics and distribution is our core business. After 30 years of development, Nelt Group became a trademark for a successful business system. The intermodal terminal in Batajnica, not far from Belgrade, is part of our business system. The terminal is connected by rail to all European ports and land terminals. The terminal is located 6 km of the intersection of the highways E-75 and E-70 and 10 km from the Airport Nikola Tesla. It offers regular weekly railway transport of containers to and from the ports of Rijeka and Pireus.

## Vanguard Sustainable Transport Systems, UK

**GOLDEN SPONSOR**

# of Employees: 4

Hydrogen Solutions for Rail, Feasibility, Design, Operation, Fuel Supply, Safety Standards.

Our mission is to accelerate the delivery of clean mobility solutions for transport through the development of hydrogen and battery technologies and associated supporting infrastructure.

### Vanguard Projects:

- HydroFLEX: the UK's first hydrogen train.
- HydroHUB: a modular, scalable hydrogen refuelling system.
- HydroShunter: The UK's first mainline hydrogen locomotive

# Vanguard

Powering clean mobility

## Concept

We help you explore the viability of sustainable technology for your transport systems.

- Feasibility studies
- Fuel usage calculations
- Drive system concept design
- Strategy & Project planning
- Short and long-term cost analysis

## Create

We design, develop and deliver sustainable solutions that make the future of your transport system a reality.

- Detailed hydrogen-hybrid drive system design
- New vehicle & retrofit conversions
- Equipment manufacture & procurement
- Vehicle builds
- Project management
- Standards compliance & homologation

## Operate

We keep connected to ensure you have everything you need to efficiently operate your sustainable transport systems.

- Realtime systems monitoring
- Fuelling infrastructure requirements
- Fuel supply
- Operator training
- Long and short-term maintenance
- Energy management
